

The image shows a technical drawing of a lamp post. On the left, a vertical dimension line with arrows at both ends indicates a height of 133 units. The lamp post itself is depicted with a cylindrical main body, a square-shaped lantern housing in the middle, a horizontal arm extending from the top, and a small, rounded light fixture at the very top. To the right of the lamp post, there is a simple vertical line representing a pole or another component, also extending from the ground line to a similar height.

**133
